

Digital Marketing Proposal

Welcome to Wisecap Design | Digital

This document outlines Wisecap Design | Digital approach, services, and pricing for a custom digital marketing proposal tailored to your brand.

Based on our conversations, we believe Wisecap is a strong fit to elevate your social media presence. Our team is excited to bring your brand story to life with the care, creativity, and craftsmanship you deserve.

If any services listed here don't align with your current priorities, please reach out and we'll adjust the scope accordingly. Once you're happy with the proposal, we'll move forward from there.

Content Strategy & Calendar

Consistency is the currency of social media. We develop a structured content calendar that keeps you active and relevant without the last-minute scramble.

- Weekly posting schedule agreed upon in advance
- Content pillars: Educational, Behind-the-Scenes, Myth-Busting, Relatable, and Process content
- Seasonal and trend-led content planned one to two weeks ahead
- Content batching — filming and planning in bulk to save your time

Content Production & Scripting

Every piece of content we produce has a clear purpose, structure, and a reason to be seen. Good content is planned, not improvised.

- Short-form video scripts for Reels — hook, body, and CTA — optimised for watch time
- Carousel post outlines for educational and list-style content
- Caption frameworks balancing personality with clear calls to action
- Story sequences for updates, engagement, and behind-the-scenes moments
- Evergreen content built for repurposing across platforms and formats

Algorithm Optimisation

Creating great content is only half the equation. We ensure every post is built to perform within Instagram and Meta's algorithm, reaching the right eyes at the right time.

- Strong hooks in the first one to two seconds of every Reel
- Keyword-rich captions and a targeted hashtag strategy
- Posting at optimal times based on audience behaviour data
- Trending audio and formats used where authentic to the brand
- Prioritising saves, shares, and comments — the signals that matter most

Meta Ads & Paid Growth

Organic content builds credibility; paid advertising accelerates reach. Once the organic foundation is in place, we layer in targeted Meta campaigns to grow your audience faster and drive direct conversions

- Awareness campaigns targeting the right audience in your geography
- Monthly performance reporting with clear metrics — reach, CPL, and conversion rate

Content Repurposing

Every idea should work harder. We build a repurposing system so that one strong piece of content multiplies into many across formats and platforms.

- A long-form Reel becomes a Story clip and a quote carousel
- A blog post becomes a caption, an infographic, and a short video script
- Caption frameworks balancing personality with clear calls to action
- A customer story becomes a testimonial post, a before-and-after Reel, and a Story highlight
- Instagram content adapted for YouTube Shorts and Facebook where relevant

Community Engagement

Social media is a two-way conversation. Growth comes not just from posting but from participating. We manage engagement as an active, intentional part of the strategy.

- Timely responses to all comments and DMs in a tone consistent with your brand
- Strategic engagement on posts from relevant industry figures, influencers, and educators

Reporting & Review

Monthly performance reports give you clarity on what's working, what's growing, and where to go next. Data informs every strategic decision we make.

- Follower growth and overall reach
- Engagement rate per post and by content type
- Top-performing content with detailed analysis
- Ad performance metrics for active paid campaigns
